

ENJOY YOUR COFFEE WITH GENEWIZ

Our next generation sequencing services include standard and custom options for extraction, library preparation, sequencing, and bioinformatics from our state-of-the-art laboratory in Leipzig, Germany (European Headquarters), backed by our global network of genomics laboratories.

We use the latest NGS technologies, including the new Illumina® NovaSeq® X series and PacBio® Revio™ platforms, to ensure you receive the highest quality data.

Our Ph.D.-level scientists provide free consultations, real-time updates, and post-delivery assistance — supporting you throughout each step of your project.

WHAT YOU WILL LEARN

How genomics services from Genewiz, part of Azenta Life Sciences, can help you advance your research.
